

AN EXPERIENCED TEAM

Jason Cigan

Practice Lead, Modern Workplace

Jason is a Practice Lead in BDO's Technology Practice, with over 17 years of professional experience providing Technology services to Financial Services & Insurance, Natural Resources, Manufacturing, Retail, Not-For-Profit and Public Sector. Jason leads and delivers engagements that drive strategic business value while providing practical implementation approaches. He is an approachable leader that encourages a collaborative culture with his team members and clients.

Jason works with clients as a subject matter expert and trusted advisor to provide requirement analysis, architecture, user experience design, program development, system/integration testing, software construction and production deployments. He has engaged with clients for training and knowledge transfer, providing best practice recommendations and evangelizing collaboration through formal and social programs.

Jason has worked on international technology projects that include enterprise document and records management, information governance and compliance, knowledge management, intranet/extranet portals, process automation, and enterprise solutions in USA, Canada, Brazil, Chile, Ecuador, Russia, and Africa.
